

ACD dice (ant/cat/dog) activity 2 (Tens)

Name: _____

Anatoly rolls 10 DAC dice as shown below. He counts how many of each animal he sees and writes it down. Then he adds the numbers together. Instead of writing out the full name for the animal he makes a shortcut and only writes the first letter of the animals' names. (Remember, use 0 c for no cats)

4 a + 5 c + 1 d Altogether there are 10 animals

Roll 10 ACD dice and record your results

1. _____ ant + _____ cat + _____ dog Altogether there are _____ animals

2. _____ a + _____ c + _____ d Altogether there are _____ animals

3. _____ a + _____ c + _____ d Altogether there are _____ animals

4. _____ a + _____ c + _____ d Altogether there are _____ animals

5. _____ a + _____ c + _____ d Altogether there are _____ animals

6. _____ a + _____ c + _____ d Altogether there are _____ animals

7. _____ a + _____ c + _____ d Altogether there are _____ animals

8. _____ a + _____ c + _____ d Altogether there are _____ animals

9. _____ a + _____ c + _____ d Altogether there are _____ animals

10. _____ a + _____ c + _____ d Altogether there are _____ animals
